# CONFERENCE STAFF

The conference staff provides and maintains the boundaries of the conference as an online temporary learning organisation. Within these boundaries the conference participants (members and staff) work towards the primary task of the conference and the various tasks of the different subsystems and events that constitute the conference.

The role of staff is not to passively observe or evaluate members, but to utilise their experience and being-in-the-moment to offer working hypotheses, interpretations, and observations to assist members in their work towards the primary task, in the here-and-now.

The staff therefore has both a directorial, management and consulting roles. The way in which staff take up their roles is always open for exploration.
